## **DETAILED ACTION**

### ***Claim Rejections - 35 USC § 102***

The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

Claims 1-2, 8 are rejected under 35 U.S.C. 102(e) as being clearly anticipated by Ortner et al.

### ***Claim Rejections - 35 USC § 103***

The following is a quotation of 35 U.S.C. 103(a) which forms the basis for all obviousness rejections set forth in this Office action:

(a) A patent may not be obtained though the invention is not identically disclosed or described as set forth in section 102 of this title, if the differences between the subject matter sought to be patented and the prior art are such that the subject matter as a whole would have been obvious at the time the invention was made to a person having ordinary skill in the art to which said subject matter pertains. Patentability shall not be negated by the manner in which the invention was made.

Claim 13 is rejected under 35 U.S.C. 102(b) as anticipated by or, in the alternative, under 35 U.S.C. 103(a) as obvious over McNamara. It appears that McNamara shows a cutting tool with a mechanism for breaking off parts of blades. The blade parts fall into a passage. Depending on orientation of the device the broken blade part would be retained therein. However one of ordinary skill in the art would obviously close the outlet of the blade exit passage to retain the blade parts rather than allowing them to fall out indiscriminately.

### ***Allowable Subject Matter***

Art Unit: 3724

Claims 3-7, 9, 14-22 are objected to as being dependent upon a rejected base claim, but would be allowable if rewritten in independent form including all of the limitations of the base claim and any intervening claims.

Claims 10-12, 23-25 are allowed.

Chen and Ciaffone are cited as of interest.
